

Dear [Dental Assistant Name],

Thank you and to the entire team of the [Dental Clinic Name] for another delightful visit. I have always tried to follow the recommendations given to me by [Dental Clinic Name] over the years. I am happy to acknowledge that there has been a very little requirement for treatment as a result.

Today, I went through a cleaning technique of water with bicarbonate that had an extremely refreshing lemon flavor. It was a pleasant surprise to find the cleaning process was pain-free and quick. Moreover, there was a fantastic fresh clean feel to all my teeth that surely brought a smile to my face.

Many thanks

[Your Name]
