Dear Dr. Watson,

I am writing to consider your invitation to enroll in your university's undergraduate Biology program in the fall. With tremendous excitement, I look forward to starting my studies at your university, and I am overjoyed to be writing this thanks you for the acceptance letter.

I am overwhelmed to thank you for your kind support and help in fulfilling my dream of joining the college. As a student, I believed in my determination and a guide to help me reach my zenith.

I sincerely thank you for your support. Please reach out to me in case there could be any way to repay this kindness in the future. Again I thank you for your time and cannot wait to begin my studies at your university in the fall.

Sincerely,

Tara Samuels
