

To Mr. \_\_\_\_\_ (Name of the teacher)

I hope you are doing good. Thank you for all that you have done to make me learn mathematics. I remember you would always encourage us to think differently while solving a problem. You would urge us to solve a particular problem by thinking of different approaches rather than the conventional one. This personally helped me to develop my creative thinking skills. I thank you for that. Thank you again for being an incredible Math teacher.

Yours sincerely
