Dear \_\_\_\_

Greetings of the day!

I am (name), the model from (place). You helped me with my first modelling portfolio on (date/month). I hope you remember me. I am writing this letter to thank you for taking the most professional head and body shots. This being my first time, I was apprehensive about my ability and you made me feel absolutely calm and composed with your kind words. Thank you for teaching me the trendy poses and showing me the good angles. I truly appreciate your attention to detail. With these amazing pictures, I was able to land my first two modelling gigs and there are a few upcoming auditions. Sending you my love and gratitude with a small gift.

Regards

(your name)
