Dear Kirk Desmond,

I hope you are doing well!

I am Anita Willows, the woman who recently conceived with the sample you had donated to the XYZ Fertility Clinic. Firstly, I would like to apologize if this letter makes you uncomfortable. However, I write this letter to solely express the gratitude that I feel within me for the part you have played in making me a mother.

Being a mother and having a child has been a dream in my life. While I tried hard over the last few years to conceive, I haven't been able to conceive successfully. So, thank you for making this possible. I had just about given up on being a mother. Your kind donation has made it a reality, and I can't thank you enough. You will always be in my prayers, and I will eternally be grateful to you. Once again, Thank you.

With kind regards,

Anita Willows
