Dear Madam/Sir

I cannot express in words my gratitude for the financial support expressly meant for advancing my career. As a student of art, I have faced a lot of hurdles in reaching where I am today. I am thrilled to be supported by a connoisseur like you.

I come from a humble background and have faced a lot of pessimism. The field of arts is not considered a viable career options and is despised by the society. I am hoping to change that mindset as well as promote young talent with the help of your grant.

I would specifically thank you for meeting and igniting the fire of passion towards arts. I simply cannot fathom students like us rising in the field of arts without your help. I specially liked your idea of creating a corpus of funds for the benefit of future talent.

I consider myself fortunate to have a benefactor like you. I cannot tell you how much I appreciate your support. I promise you that I will work hard, and possibly give back to other talented people with my time and skills as I attend the college.

Sincerely
